Mt Barker, Australia

My passion is working with War Veterans but using EFT with clients to help bring peace, love and healing into their lives - no matter what their issues - is what gives me joy every day. I really do try it on everything!!

B Pharm, Grad Dip Counselling
& Psychotherapy
Sydney, Australia
I can do EFT over the phone.

Description: I have been using EFT since 2002 for issues as diverse as migraine, multiple chemical sensitivity and arthritis, to obsessive compulsive disorder, severe depression and complex childhood trauma. I can't promise you a '3 session quick fix' because that might be misleading, as some problems, especially those that are severe or long-term, will take longer to deal with. What I can promise is that when combined with intuition and persistence, EFT can effectively

change your life.
