

Learn EFT from a certified EFT Master on the introductory **Level 1** *Emotional Freedom Technique Workshop*

The **Emotional Freedom Technique** (EFT) is an *emotional clearing* technique that can be used to help a person to reduce or eliminate *negative emotions and feelings* and *limiting beliefs* and *accumulated emotional pain* (and *more*) that are contributing to *personal issues or worries*.

The **basic EFT tapping technique** is fairly easy to study and can be learnt within about two hours. Students *practice* using EFT *with each other*. EFT can also be *self-applied*, which is practiced as well.

The *tapping technique* can be used by individuals to *tap on* something such as a present negative emotion, feeling, worry, anxiety, fear, resistance or whatever (to reduce or dissolve it or them).

EFT *includes tapping on* (stimulating) specific *acupressure points* *while* being *tuned into* (*mindful of*) a current negative emotion, feeling, issue, memory or another *and* also *expressing it or saying it*.

Applications of the EFT *tapping technique* often help a person to gradually become *more present* with his/her worrisome issue, emotion, distress or similar - and often *find some peace*.

EFT is down-to-earth. An issue or problem may be simple or complex or in-between. Many can be resolved fairly easily. When complex, we can “roll up our sleeves” and work through the layers.

EFT is an *effective tool* that has the potential to help clients (and ourselves) to reduce or resolve *emotional issues* and to improve the *quality of our lives*. EFT is worth learning and practicing.

The **Level 1 workshop** teaches *the EFT tapping technique* and *why it works*. There are live *demonstrations* of EFT and also students *practicing it* with encouragement and support. Also *introduced* is how to make progress with a *current* or *long-term issue* that is made up of a variety of “*aspects*” (i.e. the accumulated “*pieces of the pie*” that together make up that problem).

You'll be able to *practice and experience EFT* and learn to do EFT well enough to get *measurable results*. This workshop gives you *a foundation to build on* and, like ANY tool, it then requires *practice* to develop the skills further. You will receive good practical *reference material*.

EFT is a valuable tool to have for the Journey of Life.
